

Verity Touch Writer

Accessible Ballot Marking

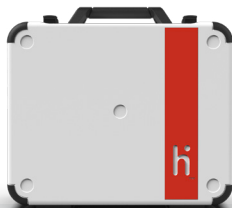

Equal Access + Vote

Accessible ballot marking with a uniform ballot for all voters.

Flexible inputs and a broad range of features for impaired voters.

Elections Reimagined

The New Voter Experience (VX)

- ▶ Seamless, Efficient, Modern
- ▶ Accessible technology that adapts to me
- ▶ Humanly Verifiable - Humans do not read barcode.
- ▶ Trusted process, Verifiable results

Working side-by-side with election professionals for more than 100 years, Hart is committed to helping advance democracy one election at a time.

Hart's mission fuels our passionate customer focus and a continuous drive for technological innovation. The result is Verity® – truly different election technology. Reimagined from the inside out, Verity Voting promises to provide jurisdictions with a future-proof investment in secure, transparent voting.

Citizen Voting Experience

It Was An Equal Experience

I got an identical, full-sized ballot just like everyone else.

Easy And Flexible

Verity Touch Writer is equipped with a full range of accessibility features and streamlined design that eliminates confusing and unnecessary buttons.

Nothing Was Confusing

Touchscreen interface with plain-language instructions inspired by EAC/AIGA Design for Democracy standards makes voting simple.

I Got To Preview My Ballot

Voters can review the ballot summary at any time, and it's easy to change selections before printing the ballot.

I Could Even Plug In My Own Adaptive Device

Personal adaptive devices such as jelly switches and sip-and-puff devices plug directly into the accessible device.

Ballots marked by Touch Writer are identical to ballots marked by hand – ensuring voter privacy and equality.

Hand Marked

Official Ballot

Democratization Election
July 4, 2019
Sample, USA

Precinct 101

Page 1 of 1

Use a blue or black ink pen to completely fill in the box to the left of your preferred choice for each contest.

To vote for a write-in, fill in the box next to the dashed line and print the name on the line.

Councilmember, City of Sampleton
Vote for not more than two (2)

☐ Dexter Green
☐ Kristy Diaz
☒ Timothy Ferguson
☐ Rufus Myers
☒ Warren Ross
☒ Wendell Bishop
☐ Mona Garrett
☐ Carol Oliver

Proposition 32-5
Choose YES or NO
Should we allocate the funds for that public project that many think we are in dire need of but that others think is a waste of taxpayer's dollars?
☐ YES
☒ NO

President
Vote for not more than one (1)

☒ Dewey Maldonado
☐ Cameron Dunn
☐ Kate Parks
☐ Jacob McGee

U.S. Representative, District 1
Vote for not more than one (1)

☐ Percy Chambers
☐ Martha Ray
☒ Lucas Griffin
☐ George Douglas

Election Administration Experience

“One and Done” Training

Simple, plain-language onscreen instructions make learning Verity easy. On-screen instructions help poll workers do everything from starting a voting session to start-up and shut down.

Best-in-Class Voter Experience

Your Voters are happier when they have the simple interfaces and uncomplicated processes Verity provides.

Provides True Equality of Access

Verity Touch Writer, paired with a Hart-integrated COTS printer, produces identical full-sized paper ballots for all voters – no segregated ballots.

We Thought of Everyone

Includes adjustable audio and contrast settings and compatibility with “sip-and-puff” and other adaptive controls. The voting booth offers easy wheelchair access, and the tethered controller can be placed wherever it is easiest for the voter to use.

"Hart's accessible controls let me easily move through the ballot emotionally and physically. I didn't have to work so hard to pick the right button like I did with the other system."

– William Greer, Accessibility User Group,
Austin TX, March 2020

Hart thanks the many advocacy groups who support us in always enhancing the accessibility of our voting technology, especially the National Federation of the Blind, Coalition of Texans with Disabilities, ADAPT Texas, and Austin Lighthouse/Travis Association for the Blind.
